

CB

Bumper System

The durable, spring action of Alvarado's CB Cart Bumper System makes it the preferred choice for maximum protection against heavy impact.

Alvarado's CB Bumper System is ideal for use in cart corrals, protecting areas where shopping carts are in heavy use. The CB is available in 2, 3, 4, 5 and 6 foot channel lengths, which can be combined to accommodate most any layout configuration. Angle ends are also available for corner protection. The CB comes in chrome or stainless steel finishes.

- Protects refrigeration cases, walls, display shelves, railing, and gondolas from cart damage
- Resilient spring steel feet can absorb heavy impacts
- Constructed from heavy wall steel channel
- Permanent floor anchoring using 1-inch double expansion anchors
