

An ideal solution for portable crowd control and pedestrian queuing applications, Eclipse retractable belt products offer premium quality and features, without the premium price.

Eclipse stanchions include a steel post, plus a weighted base for added stability. Other standard features include an attached rubber floor protector pad, slow belt retraction, and locking belt end.

The wall-mount Eclipse features the same heavy-duty belt head mechanism, with locking belt that extends up to 8 feet.

Three separate belt attachment points allow nearly any queuing configuration.

The Eclipse stanchion is available with a bright chrome post and base cover, satin finish post and base cover, or with black textured post and scratch resistant black plastic base cover.

Standard belt colors are black, blue, green, yellow and red.

Custom colors and silk-screened belt messages and logos are available.

- ***Steel Post With Weighted Base and Base Cover***
- ***Locking Retractable Belt Extends Up to 8 Feet***
