EDCX-SCP

TICKET SCANNING TURNSTILES

Alvarado's EDCX-SCP turnstile provides ticket scanning of barcoded or "print at home" tickets. In addition, the turnstile includes a thermal ticket printer and magnetic stripe reader to support digital ticket printing.

As bar code tickets are presented, the EDCX-SCP communicates with Alvarado's GateLink Validation software in real time to provide admission status to the patron via a super bright TFT display.

The addition of a ticket printer and magnetic stripe reader, and an upgrade to GateLink

Validation Plus provides a simple method of implementing web based ticket transfers and digital ticketing fulfillment.

The attractive EDCX-SCP has no external bolts or fasteners and includes only the finest mechanical and electronic components. Communication options include wired Ethernet, or wireless radio frequency communication (IEEE 802.11b).

The turnstile is available in satin stainless steel and can be ordered as a portable unit, with battery, charging station, base plate, wheels and handle.

- **Barcode Scanning**

- **Ticket Printer for Digital Ticketing Fulfillment**

- **AC or Battery Powered**

- **Integrates Seamlessly with Alvarado's GateLink™ Validation Plus Software**

- **Wired or Wireless Ethernet Communication**

ALVARADO

ALVARADO TURNSTILES

PRODUCT NAME
EDCX-SCP

APPLICATIONS
A barcode scanning admission control turnstile. The EDCX-SCP is equipped with readers, as well as a controller and firmware to interface with Alvarado's GateLink Validation Plus software.

PRODUCT FEATURES

Styling
- Superior styling
- No exposed bolts or fasteners
- Concealed anchoring system

Materials and Operation
- Ticket insert area for barcoded or "print at home" tickets
- Locking hinged lid
- Stainless steel investment cast internal components
- Hydraulically dampened arm operation self-centers arms and prevents over travel
- Wide patron passage width
- Key override to manually unlock turnstile in entrance direction

Electric
- 110VAC input stepped down to low voltage (maximum current draw of 2 amps per turnstile)

Operational Features
- Super bright TFT patron display
- High intensity "Go/No Go" LED indicators
- Keypad and 2-line, 20-character vacuum fluorescent display for attendant
- Industrial grade rastering bar code scanner provides superior scanning and throughput speed
- Thermal ticket printer
- Swipe-style magnetic stripe reader
- Integration with Alvarado's GateLink Validation software via wired (10base-T) or wireless (802.11b) Ethernet

PRODUCT FEATURES (continued)

Available Finishes
- #304 stainless steel

OPTIONS
Wireless Communication - Wireless Ethernet (IEEE 802.11b).

Portable Battery Power Option - Includes baseplate, wheels, stainless steel handle, battery compartment and charger.

**Portable AC Power Option** - Includes baseplate, wheels, stainless steel handle and connectors.

Resettable Counter - Key resettable lithium battery powered LCD counter installed in turnstile cabinet.

Key Override - Manually unlocks turnstile in exit direction.

220-240 Volt Transformer - Replaces standard transformer.

WARRANTY
Alvarado's one-year written warranty applies to all products.
