

Alvarado's FP-14 stanchions offer a contemporary approach to classic post & rope queuing.

The FP-14 rope stanchion is ideal for a variety of portable crowd control applications, particularly those that require a more formal, traditional look.

Designed for use with queuing ropes up to 8 feet in length, the FP-14 features a weighted base for added stability, and includes integrated non-marring rubber floor protection.

Other features include a 2.25" diameter steel stanchion post with welded four-way rope flange for flexible queuing configurations.

Ropes and rope hardware in standard and custom colors / finishes are also available.

The FP-14 may be ordered with a bright chrome post and chrome base cover, brass finished post and base cover, or with black textured post and scratch resistant black plastic base cover.

- ***Traditional Post & Rope Stanchion With Contemporary Styling***
- ***Steel Post With Welded Four-Way Rope Flange***
- ***Weighted Base Provides Exceptional Stability***
- ***Available in Bright Chrome, Brass and Black Textured Finishes***

ALVARADO

DESCRIPTION

PRODUCT NAME

Model FP-14 portable rope stanchion.

APPLICATIONS

FP-14 rope stanchions are suitable for use in a wide variety of traditional pedestrian queuing/crowd control applications.

PRODUCT FEATURES

Materials/Construction

- Stanchion post is made from 2.25" diameter 16-gauge steel tubing
- Four-way rope flange is welded to the top of the post
- 14" diameter epoxy coated cast iron base weight provides greater stability
- Base weight includes attached non-marring rubber floor protection
- Base covers are 16-gauge stamped steel or scuff-resistant black plastic depending upon finish of post

FP-14 rope stanchions shown in standard finishes.
