

**A**lvarado's newly redesigned Model GDO is an exceptionally durable, all stainless steel gate that is suitable for use in demanding, high traffic warehouse and home center store applications.

The GDO's self-closing, dual gate design allows the gate arms to open 90 degrees in a single direction. A rugged gravity closure mechanism provides smooth, self-closing operation.

The GDO is constructed with steel crash plates welded to each gate arm, making it an ideal choice for shopping and stocking

cart pass-through applications. High impact bumper strips with state-of-the-art 3-M<sup>®</sup> adhesive are also included to provide additional protection.

When optional rail outlets are added, either at the factory or in the field, the GDO can be integrated with virtually any railing system.

Available with 36" or 48" passage widths, the GDO comes standard in bright polished stainless steel, with satin stainless crash plates. Optional powder coat finishes are also available.

- **Self-Closing, Single Direction Dual Gate**
- **Fully Welded Stainless Steel**
- **Crash Plates Include Tough Bumper Strips**
- **36" or 48" Passage Width Configurations**

# ALVARADO

## DESCRIPTION

### PRODUCT NAME

Model GDO - Single direction, self-closing, dual gate.

### APPLICATIONS

Used in retail stores and for other applications. Stainless steel crash plates make the GDO gate ideal for use as a one-way shopping cart pass-through.

### PRODUCT FEATURES

#### Materials and Operation

- Heavy gauge materials meeting appropriate ASTM standards
- Fully welded stainless steel construction
- Dual, single direction gate arm assemblies use gravity closure for smooth, self-closing operation
- Stainless steel crash plates are welded to the gate arm assemblies to guard against damage from carts
- Self-adhering bumper strips with near-permanent adhesive.
- Available in 36" and 48" passage width configurations
- Easy installation
- Gate posts secure to the floor with four anchor bolts

#### Finishes

- Standard gate finish is bright polished stainless steel (600 grit finish) - crash plates are satin stainless steel
- GDO gates are also available in color powder coat finishes

### GDO OPTIONS

**Rail Outlets** - Factory-attached or loose rail outlets are available for integration with Alvarado post and rail systems.

Model GDO gate shown with extended, 48" passage width configuration.

### WARRANTY

Alvarado's one-year written warranty applies to all products.
