

**A**lvarado's SL-10 and SL-15 latch gates are a simple, effective solution for applications requiring a light-duty gate that can be easily integrated with post and rail systems.

Typically used to close off areas such as cart returns and check stand lanes, SL gates feature a double-sleeve gate hinge and U-shaped flip latch that allows the gate to swing in either direction.

Available with 10" (SL-10) or 15" (SL-15) gate arms, SL gates may be ordered for 24", 30", 36" or 48" passage widths. When used in combination with double rail systems, the SL-10 fits conveniently between the double rails when the gate is opened.

Standard finish is high-polished chrome. Color powder coat finishes are also available.

SL-15 gate shown in a high polished chrome finish

- **Double Sleeve Hinge Assembly**
- **Durable Construction**
- **Single or Bi-Directional Applications**
- **U-Shaped Flip-Down Gate Latch**

# ALVARADO

## DESCRIPTION

### PRODUCT NAME

SL-10 / SL-15 - sleeve latch gates

### APPLICATIONS

Bi-directional gates often used in conjunction with post and railing systems.

### PRODUCT FEATURES

#### Materials and Operation

- Heavy gauge materials meeting appropriate ASTM standards
- Fully welded steel flip latch
- Hinge rings lined with plastic to reduce metal-on-metal contact
- Welded steel rings on gate end allow gate to slide onto a hinge post
- Set rings secure gate arm to hinge post

Model SL-15

#### Finishes

- Polished chrome
- Baked on polyester powder coat

### SL OPTIONS

**Heights** - The SL gates are available with gate arm heights of 10 or 15 inches.

**Widths** - SL-10 / SL-15 gates may be ordered with 24", 30", 36" or 48" passage widths.

Model SL-10

### WARRANTY

Alvarado's one-year written warranty applies to all products.
