

SSB

Bumper System

Alvarado's SSB bumper system provides outstanding protection for cases and fixtures, plus the convenience of quick removal for floor maintenance.

Alvarado's SSB stainless steel removable bumper system offers solid protection for walls, refrigerated cases, and other fixtures. The unique design of the SSB system allows straight rail sections to be rotated 180 degrees so it looks new again.

- Stainless steel, satin finish
- Removable for floor and case maintenance
- Corner sections available in 90 and 135 degree configurations
- Easy to clean and remove minor scratches
- Easy to cut for on-site changes
- Rail tubing can be rotated 180 degrees so it looks new again
