Product Description

Alvarado Manufacturing Company offers a complete line of post and railing components. Designed for strength, durability and aesthetic appeal, these railing systems afford directional control and security in addition to use in a wide variety of custom applications. Railing systems are manufactured in single rail, double rail, and triple rail configurations, to meet varying security and design needs. Our posts feature a steel base plate welded to heavy duty steel tube with a secure post cap. There is no exposed anchoring. The rail outlets bolt directly to the post and a 0.25" set screw securely lock the rail into position.

Dimensions

Post tubes are 2.25" O.D. (outside diameter) and railing lengths are 1.75" O.D.

Stock railing lengths are available in 6" increments from 1' to 10'

Custom post heights available.

Several anchoring systems available

Materials: All tubing meets appropriate ASTM standards.

Finishes

- Available standard in **highly polished chrome**.
- **Stainless Steel** – All external fabricated materials are composed of #304 stainless steel, polished to a #4 satin finish.
- **Powder Coated** – Available in a wide variety of colors baked over cold rolled steel.
- **Hot Dipped Galvanized** - Suitable for most outdoor applications. All exterior tubing receives a coating of hot molten zinc, not less than 2 oz. per square foot after welding.

Installation

Posts are designed to be mounted to a firm foundation. The mounting hardware (anchors, bolts, washers, etc.) to mount the unit to a concrete or Terrazzo floor is available (additional charge may apply). It is suggested to use skilled mechanics either under the supervision of a Manufacturer's representative, or following the manufacturer's directions and instructions (supplied with the gate).

Warranty

Limited Warranty: Alvarado Manufacturing Co., Inc. warrants the products from defects in material or workmanship, for the period of ONE YEAR from date of shipment. Complete details of warranty available from manufacturer by request.

Maintenance

Care and Cleaning: The external care for the stainless steel units consists of cleaning the external surfaces with any commercially available stainless steel cleaner or polish.
